#ImmunizeEurope

“As a doctor, parent, grandparent and children’s rights advocate, I urge EU policy-makers to press health authorities in all EU member states for universal, free-of-charge vaccine programmes for children.”

Professor Tom Stiris
President
European Academy of Paediatrics (EAP)

www.eapaediatrics.eu

#VaccinesWork
#ImmunizeEurope

“IT is a challenge! As a doctor and a grandmother, I think media can be very helpful in publishing recent true stories of preventable outbreaks, sometimes with dramatic outcomes.”

Dr. Ana Margarida Neves, MD, MSc, PhD
Vice-President
European Academy of Paediatrics (EAP)

www.eapaediatrics.eu
#VaccinesWork
#ImmunizeEurope

"Indisputable evidence-based data shows that immunizations prevent 2-3 million deaths/year without risks at any age.

Therefore I vaccinate my own children, grandchildren and myself."

Dr. Stefano del Torso, MD
Executive Director
European Academy of Paediatrics (EAP)

www.eapaediatrics.eu

#VaccinesWork
#ImmunizeEurope

"In my career as a paediatrician, I have seen children die from diseases which are vaccine preventable.

#VaccinesWork and they are safe."

Dr. Adamos Hadjipanayis, MD, PhD
Secretary-General
European Academy of Paediatrics (EAP)

www.eapaediatrics.eu
#VaccinesWork
#immunizeEurope

“Vaccines save countless lives every year. As a paediatrician - and a grandparent - I would urge you to use them.”

Dr. Robert Ross Russell
Chair of the European Board of Paediatrics
European Academy of Paediatrics (EAP)

www.eapaediatrics.eu

#VaccinesWork
#immunizeEurope

“Babies and patients with compromised immune systems, who can’t be vaccinated themselves, can be protected from dangerous diseases by vaccination of all people in their environment.”

Dr. Zachl Grossman
Scientific Director, EAPRASnet
European Academy of Paediatrics (EAP)

www.eapaediatrics.eu
"Myths and unfounded fears related to vaccines lead many parents to leaving their children unprotected, thus endangering others who cannot be vaccinated. Vaccines are among the safest pharmaceutical products being subject to the strictest safety regulations and to continuous surveillance."

Dr. Hans-Jürgen Dornbusch, MD
Chair of the Vaccination Working Group
European Academy of Paediatrics (EAP)

www.eapaediatrics.eu

"As a doctor standing for universal child rights, all children have the right to be vaccinated to prevent disabilities as limb amputations by meningococcal sepsis and deafness by pneumococcal meningitis."

Dr. Liesbeth Siderius, MD
Coordinator of the Working Group on Rare Diseases
European Academy of Paediatrics (EAP)

www.eapaediatrics.eu
#VaccinesWork
#immunizeEurope

"As a doctor and a parent, educating children and adolescents about vaccinations is of great importance and should start in early childhood."

Dr. Lenneke Schrier, MD, PhD
Acting Chair of Young EAP
European Academy of Paediatrics (EAP)

www.eapaediatrics.eu

#VaccinesWork
#immunizeEurope

"As a doctor, it is of utmost importance to defog the myths about vaccines, address wrong information and informants, and educate on the benefits of vaccinations."

Dr. Andreas Trobisch, MD
Young EAP Representative
European Academy of Paediatrics (EAP)

www.eapaediatrics.eu
