

ONLINE COURSE

13 & 14 OCTOBER 2023

European Academy of Paediatrics

Paediatric Section of U.E.M.S.

CORE
KNOWLEDGE IN PAEDIATRICS

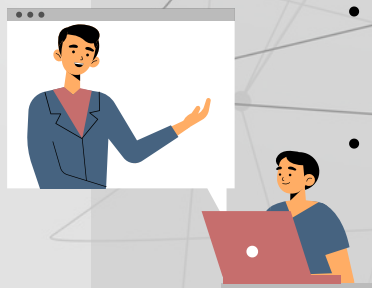

Prepare for Any Exam in Paediatrics or Refresh Your Knowledge

Join the EAP for the third edition of Core Knowledge in Paediatrics: a 2-day, online course on Friday 13 & Saturday 14 October 2023 covering core knowledge in paediatrics in line with the European Paediatric Training curriculum.

The course was created with the upcoming European Board of Paediatrics exam (November 2023) in mind, but it is a perfect distance-learning course for paediatricians or general practitioners in a primary care setting with an interest in paediatrics.

Be a part of this novel and interactive way to harmonise training across Europe and beyond.

- **Clinical Case Submissions:** Participants are invited to submit a teaching clinical case with a poster, the best 2 cases will be selected for presentation in the programme. Keep an eye on the site for the submission opening date!
- **Live Q&A with Experts:** The course will include sessions with Exam Chairs, exam question writers, and previous successful exam candidates and there will be opportunities to ask questions live.
- **Access to Recordings:** You will be able to watch lecture recordings, access questions and answers and continue interacting with the speakers and attendees for up to 3-months post-event. Recordings will be available from 23 October 2023.
